

Hydrite to Exhibit at American Coatings Show

Hydrite Chemical Co., an integrated manufacturer and supplier of chemicals and related services, is pleased to announce that it will be exhibiting at this year's American Coatings Show at the Indiana Convention Center in Indianapolis, Indiana on April 10-12, 2018 in booth 343.

The American Coatings Show and Conference is North America's premier coatings industry event. This event offers multiple educational and networking opportunities including product presentations, 10 pre-conference tutorials, keynote presentations, and over 15 technical sessions covering topics including Functional and Smart Coatings, Measuring and Testing, and Protective Coatings.

This year at the American Coatings Show, Hydrite will display its complete line of polymers, solvents, defoamers, antifoam and air release agents. Hydrite will have a team of experts at the show ready to discuss everything from emulsions and resin solutions to foam control technology, solvent recycling and waste handling.

Hydrite is a full-service supplier of styrene/acrylic emulsion polymers and solutions for the water-based inks and coatings industry. Its HydriPrint™ and Hydricryl™ product lines offer a wide range of performance attributes to meet application requirements.

Hydrite provides fully integrated lab services designed to help solve the toughest foaming issues and provide a professional report detailing the results and solution recommendations.

Terry Chomniak, Director of Sales - Process Organics, commented, "We are excited to exhibit again at this year's event. It's a great opportunity for us to meet with industry manufacturers and share our toll manufacturing capabilities. We look forward to showcasing our wide range of products and having our technical experts discuss your toll manufacturing challenges."

Hydrite has developed a reputation within the industry for providing the distinct combination of excellence in chemical manufacturing and distribution with the most comprehensive level of technical expertise available. To learn more, visit www.hydrite.com or call 262-792-1450.

About Hydrite Chemical Co.

Hydrite, a family-owned company established in 1929, is one of the largest independent providers of chemicals and related services in the United States. Headquartered in Brookfield, Wisconsin, Hydrite has a network of manufacturing facilities, warehouses, and laboratories located in Illinois, Wisconsin, Iowa, Indiana, California, and Texas with over 900 employees in 23 states. Hydrite owns and operates a private fleet of over 255 units including tractors, van trailers, tankers, and railcars.

Hydrite offers expertise in chemical distribution and manufacturing, food and dairy sanitation, organic processing, liquid sulfites, foam control, water treatment, and compliance management services.

With over 7,000 items in its product portfolio, Hydrite's dedicated chemists, engineers, and technical service staff have extensive knowledge and experience in solving the most challenging formulating problems. Hydrite has a strong commitment to quality and customer responsiveness, and offers superior products and innovative solutions.
