

Hydrite Chemical Co. Acquires Organic Defoamer Group, ODG

BROOKFIELD, Wis., January 15, 2018

Hydrite Chemical Co. announces the acquisition of Organic Defoamer Group (ODG), a leading provider of antifoams, defoamers and other specialty products located in Jackson, Wyoming. Industries served include: Food, Sugar, Grain Processing, Fermentation, Mining and Water Treatment. All of these markets Hydrite currently serves today, making the combination of Hydrite and ODG very exciting as we look to grow further with customers in these areas.

Hydrite has developed a reputation within the industry for providing the distinct combination of excellence in chemical manufacturing and distribution with the most comprehensive level of technical expertise available. To learn more, visit www.hydrите.com or call (262) 792-1450.

About Hydrite Chemical Co.

Hydrite, a family-owned company established in 1929, is one of the largest independent providers of chemicals and related services in the United States. Headquartered in Brookfield, Wisconsin, Hydrite has a network of manufacturing facilities, warehouses, and laboratories located in Illinois, Wisconsin, Iowa, Indiana, California, and Texas with over 900 employees in 23 states. Hydrite owns and operates a private fleet of over 255 units including tractors, van trailers, tankers, and railcars.

Hydrite offers expertise in chemical distribution and manufacturing, food and dairy sanitation, organic processing, liquid sulfites, foam control, water treatment, and compliance management services.

With over 5,000 items in its product portfolio, Hydrite's dedicated chemists, engineers, and technical service staff have extensive knowledge and experience in solving the most challenging formulating problems. Hydrite has a strong commitment to quality and customer responsiveness, and offers superior products and innovative solutions.
