

Cleaning Solutions

Hydrite & Harrigan

Hydrite is proud to collaborate with Harrigan Sanitation Solutions for premier on-site cleaning for the food and beverage industry. Harrigan Sanitation Solutions provides contract cleaning as part of a larger food plant sanitation plan, with a unique team culture focused around trust and continuous improvement. They offer a host of solutions to increase the state of cleanliness at your facility, including a focus on environmental sustainability through proper treatment, reduction, and waste recycling. Working alongside Hydrite's best-in-class chemistry solutions team, Harrigan is committed to meeting the changing needs of its clients through the provision of appropriate, efficient, and environmentally friendly sanitation and waste management systems.

The Harrigan Difference

- **Excelling Above the Rest:** Compared to an average industry turnover rate of 104%, Harrigan maintains a 13% turnover rate with strong employee engagement.
- **Reduced Risk & Improved Efficiencies:** Achieve audit readiness through cloud-based software, maintain compliance with sanitation regulations, and power profits through reliable start times and fast cleaning schedules.
- **Expertise:** By maintaining a low employee turnover rate, Harrigan's teams retain valuable expertise and experience.
- **A Team of Pros:** The Harrigan team includes 20+ years of industry experience including food safety and 6 Sigma Black Belt professionals.

HARRIGAN

SANITATION SOLUTIONS LLC

Trustworthy Teams | Continuous Improvement

Providing Creative Solutions

Services Offered
