

Oil & Gas Solutions

Offering Customized Solutions

Hydrite understands the challenges facing the oil and gas industry. We offer a variety of solutions that are unique to each application.

		
Cost	Performance	Environment
• Manufacturing & processing flexibility • Vendor managed inventory systems	• Polymer manufacturing & blending capabilities • Foam control products	• Water treatment chemistries • Waste management services

Quality Products

Custom blending, toll manufacturing, and industrial chemical distribution; along with 7,000 products in our portfolio including surfactants, xylene, methanol, and toluene.

Acetic Acid

Ammonium Thiosulfate

Calcium Chloride

Caustic Soda

Citric Acid

Ferric Chlorite

Glycolic Acid

Hydrated Lime

Hydrochloric Acid HCL

Hydrogen Peroxide

Muriatic Acid

Peracetic Acid PAA

Phosphoric Acid

Polyphosphoric Acid

Potassium Carbonate

Propylene Glycol

Soda Ash

Sodium Bisulfite

Sodium Chlorite

Sodium Hypochlorite

Sodium Thiosulfate

Sulfamic Acid

Sulfuric Acid

Benefits of Partnering With Hydrite

- Local warehousing for quick, cost effective deliveries.
- Extensive support utilizing account managers and field technicians.
- Routine service visits to help maintain optimal performance of chemistry.
- Access to Hydrite's technical R&D & regulatory affairs personnel.
- Operator training for troubleshooting and chemical feed optimization.

Offering Expertise in Oil & Gas

Hydrite is proud to provide creative solutions to the oil & gas industry with a focus on chemistry for drilling, stimulation, production, and midstream services. Our strength lies with the ever-expanding technical capacity of our staff and the decades of experience they bring to the table.

As your partner, we will examine your current chemistry and process, and recommend a cost reduction plan.

Providing Creative Solutions
