## Our Pet Ingredient Solutions

### Human Food Grade Ingredients

Hydrite provides human food grade liquid and dry ingredients for pet food and treat formulations. We produce and/or distribute an extensive line of food ingredients and preservatives, all backed by Hydrite Chemical Co.'s reputation for consistent quality.

- HydriPet™ VG 105 Coconut Glycerin

# Pet Food Safety

Hydrite provides creative solutions to address food safety, operational and equipment efficiency and complete customer satisfaction. Our superior technical service is evident in our product development. We do whatever is necessary to formulate the best solution to fit your needs. We take the time to understand your business, then craft the best solution possible to prevent any food borne illness. Our extensive line of sanitation products, coupled with our technical support, will increase your productivity, and ultimately, your bottom line. We have a comprehensive approach to cleaning and offer a full range of products, such as CIP cleaners, acid rinses, and sanitizers. We also have the technical expertise and flexibility to quickly produce custom solutions to fit your unique need.

## Plant and Process Sanitation

Help protect your brand with proven products and applications. Whether it's sanitizing pet food process equipment or environmental and transportation microbiological control, Hydrite has the solution and technical support.

## Sanitizers and Microbial Control

Decades of expertise in providing sanitation solutions coupled with our proven cleaning products offerings allows us to create a total, customized cleaning program.
